

# CV

**Name:** Blai M. B.

**City:** Tarragona

**Email:** blmube@iecomaruga.cat

**Phone:** 34234234324

## Personal Profile

My name is Blai Muñoz Benet and I am 16 years old. I study at IE Coma-ruga.

I enjoy playing video games and learning about technology.

I would like to learn more things because I think it is useful when I need to repair or buy things for my PC, which is one of my hobbies.

## Education

**School:** IE Coma-ruga

**Studies:** Secondary Education

## Skills

I am good with my hands and I use computers very well because I spend a lot of time playing video games and using technology, for example do optimizing a computer or repair informatic problems.

## Languages

- Catalan
- Spanish
- English

## **Electrician**

I want to apply myself as an electrician because I would like learn about new technologies and I would like to study this field. I would like to earn money for buying a computer for my studies, to make it more faster. Also it will be very useful for me to learn electrician work because this way I could fix the appliances that break for some reason, like my father does.

## **mechanic**

I want to work as a mechanic to learn about how the mechanisms of cars and the vehicles I see work, so I can understand how they are made and be able to do things I could not do before. Also, if one day I have a vehicle that I have learned to repair, I will not need to take it to be fixed because I will be able to do it myself.

On the other hand, I would like to earn money to buy a computer so I can do my work faster with it because I want to study programming.
