Part 2 – My decision (Electrician)

I would like to apply for the electrician job because it is a practical and technical job that interests me, I think this job is a good option for me because I enjoy learning how things work and I like solving problems. *Also*, it is a stable job with good working conditions, the most important skills for this job are problem solving, attention to detail and knowledge of electrical systems. I think I am a good candidate because I am responsible and calm, and I like learning new skills. *In my opinion*, this job fits my personality better than the other one.
